About Us?

For over a decade, In Coatings has transformed commercial, industrial, and residential built environments with texture and character. Whether it's a new build or a renovation, we bring creativity to every project by combining design elements, architecture, and our clients' unique personality.

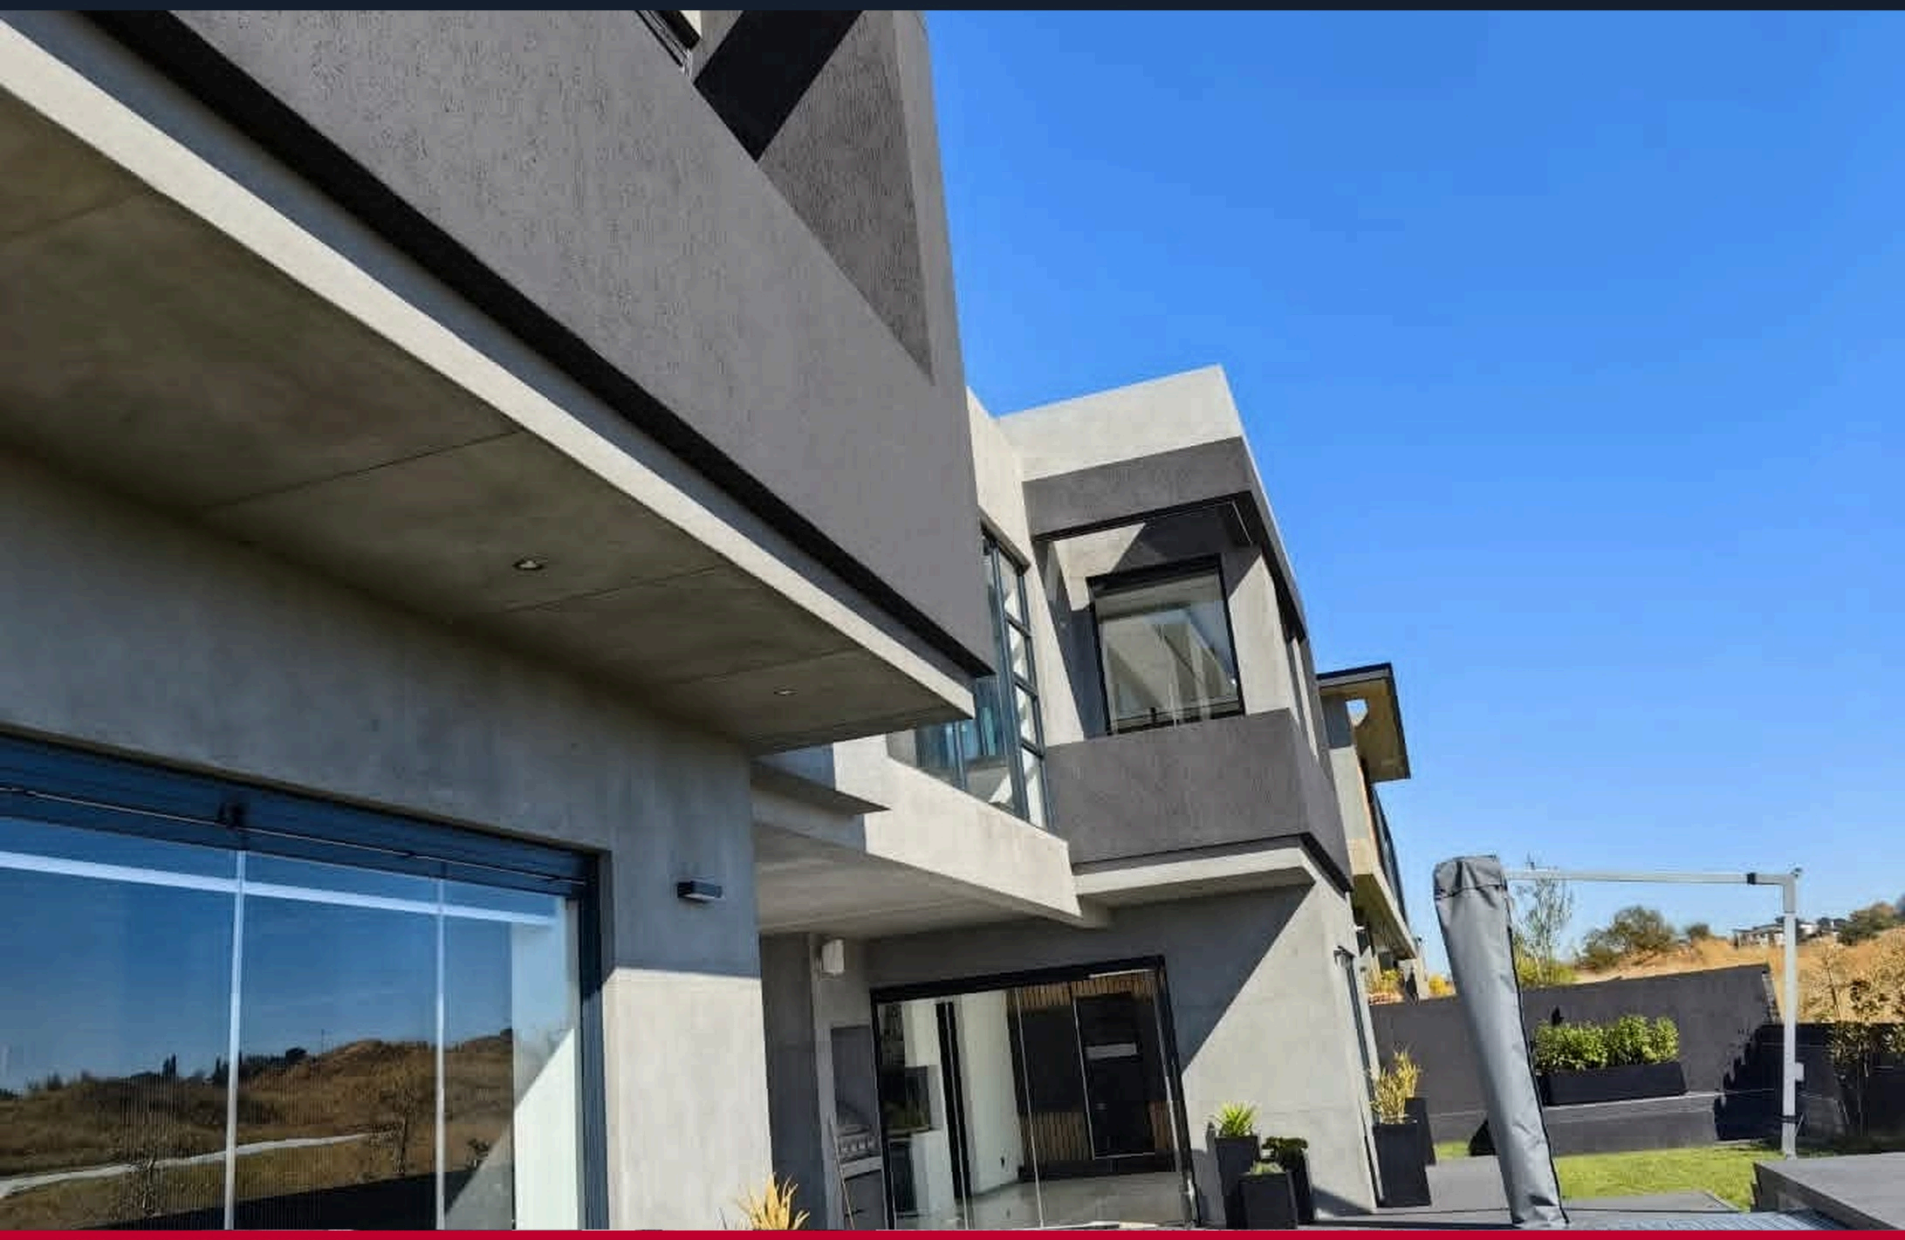

In Coatings offers a convenient turnkey solution for residential, commercial, and industrial projects. To ensure faster execution, minimize delays, and coordination issues, we handle every detail from the initial stage to the final handover. This approach enables us to deliver a fully functional product that aligns with your needs.

Our fully qualified turnkey team possess the necessary skills, knowledge and certifications to deliver comprehensive turnkey solutions.

Our professional team is dedicated to achieving high-quality results while streamlining processes, reducing delays, and customizing our services to meet your specific requirements.

We provide a single point of responsibility from design to completion, simplifying communication and resolving issues quickly. Our services also offer cost certainty, thereby reducing financial risks. We take on the responsibility of ensuring that the project meets rigorous quality standards, lightening your a dministrative load.

Furthermore, we proactively manage and mitigate risks throughout the design phase and into the safety aspects of the project.

Our **Promise:**

Our high-quality products guarantee a flawless and long-lasting finish. To the construction worker, DIY enthusiast, architect, or homemaker: Contact us before demolishing a wall, we can transform it.

At In Coatings, we've got you covered!

★ Our **Value**

Our core values are :

- **Empowerment:** Our ethos is to replace the "entitlement mindset" by imparting skills, and knowledge to create a culture of self-sufficiency thereby alleviating poverty
- **Reliability:** We deliver on every promise every time
- **Integrity:** We demonstrate honesty, transparency, and ethical behavior in all actions and decisions
- **Innovation:** We encourage creativity, continuous improvement, and the development of new ideas
- **Diversity & Inclusion:** We value and promote a diverse and inclusive work environment
- **Equality:** We treat everyone with equal respect and dignity.
- **Teamwork:** Together as a team WE win

A natural stone embedded into a coloured backing paste which is plastered on the wall.

Designed with performance and the environment in mind

As a company, we take great pride in manufacturing our own range of paints, which are fully compliant with regulatory standards. Our coatings are carefully formulated using natural aggregates, organic pigments, and water, resulting in a product that is not only user-friendly but also environmentally conscious, with volatile organic compounds (VOCs) of less than 0.03%.

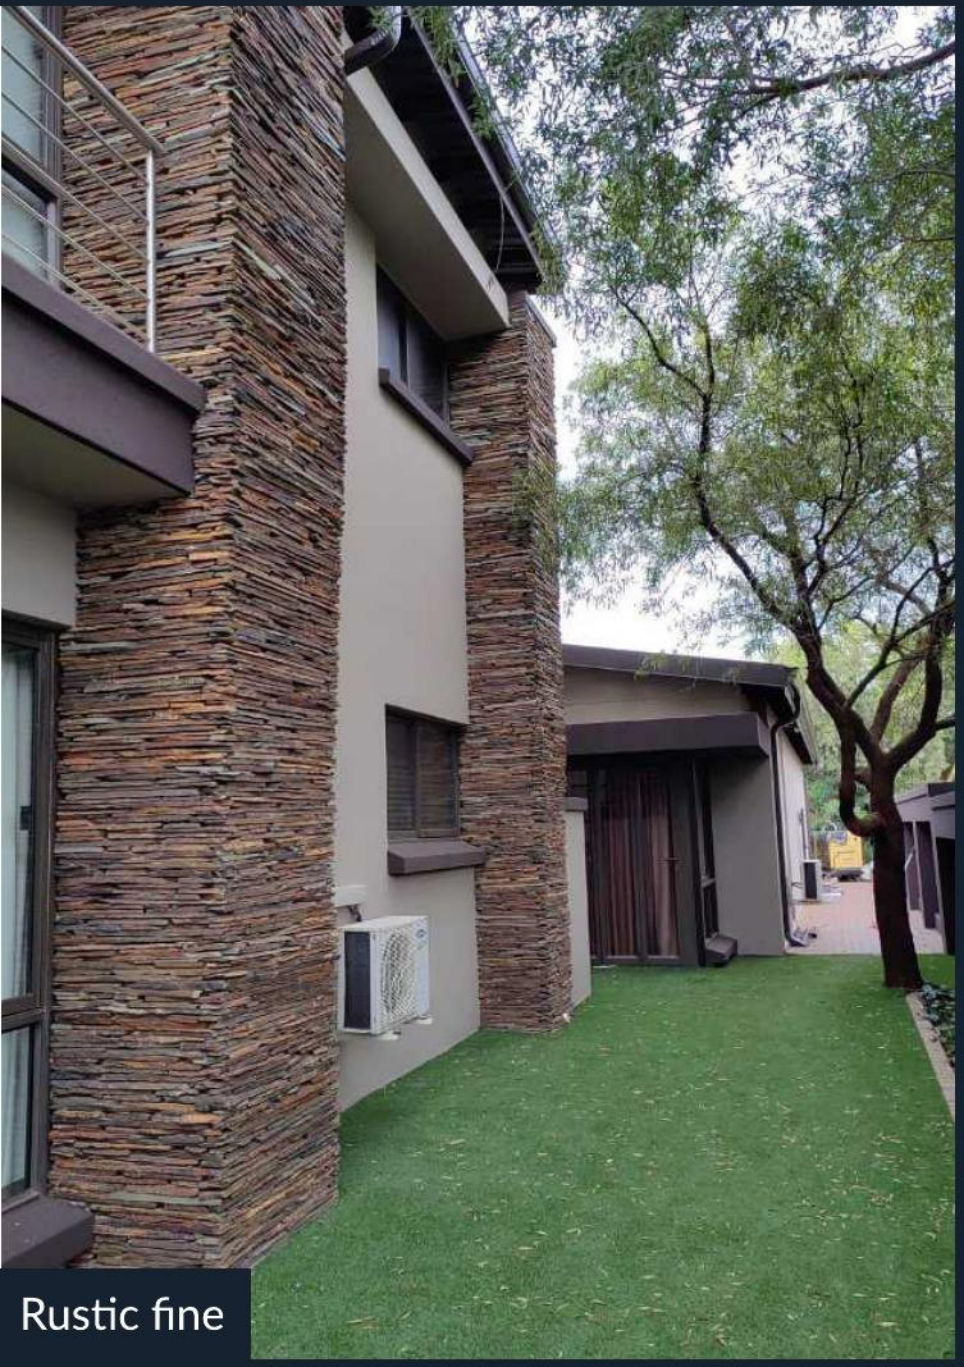

We maintain high standards of quality throughout our manufacturing process and product application, and we are confident in the superior performance and longevity of our products and workmanship. Our written 10-year guarantees stand as a testament to our unwavering commitment to excellence.
